

CANDIDATE SITE REGISTER

Index of Sites

Foreword

The Rhondda Cynon Taf Local Development Plan (LDP) provides for a new way of planning for the future of the County Borough. This follows major changes to the planning system which were introduced by the Planning and Compulsory Purchase Act 2004. It sees the replacement of the old system of structure and local plans which, until the LDP is adopted, forms the Development Plan for the County Borough.

As the Plan will identify land for new development during the period 2006 – 2021, it will be important that sites allocated for housing, employment, and other uses are capable of coming forward within this timescale and that they can contribute fully to sustainability objectives whilst meeting overall growth requirements.

Previous undeveloped local plan allocations, along with sites put forward by development interests (Candidate Sites) need to be considered carefully. A Methodology for consistently and objectively assessing these sites was subject to consultation in the summer of 2006.

This Candidate Site Register brings together the approved methodology together with a full list of strategic and non-strategic sites to be considered, with maps showing their location and extent. Through the publication and availability of this information further transparency will be added to the process.

Gaps in the number sequence for the Candidate Sites result from the omission of small sites of 0.3 hectare or less. These will be considered as part of the review of settlement boundaries.

Site ID	Settlement	Site Name	Proposal	Area (Hect)	Register (Part)	Register Page No.
179	Aberaman	Land at Farrells Homecare	Residential development	0.82	Part 1	134
