

Next steps

We submitted our revised plans to update the existing permissions for Westdown quarry to Somerset Council in autumn 2023. We now await its determination of our simpler scheme.

Subject to this, we'll develop a Construction Environment Plan (CEMP), a Landscape and Ecological Management Plan (LEMP) and final Highways plan as well as operational plans re noise and dust management for agreement with Somerset Council.

All our revised planning documents are available to review or download from our website at:

heidelbergmaterials.co.uk/westdown
